FOREWORD

It is a great pleasure to release the 2013 Schools Performance Report. This report provides information on the overall performance of the schools that wrote the National Senior Certificate examination, over the last three years. This report is an effort by the Department of Basic Education (DBE) to provide overall performance information for school managers, district officials and provincial officials, which could be used to track trends in schools' performance. This report must be read in conjunction with the Schools Subject Report and the Diagnostic Report on Learner Performance, in order to obtain a more comprehensive outlook of the performance of the Class of 2013.

The National Strategy for Learner Attainment (NSLA) was launched by the Department of Basic Education, as a targeted programme to improve learner performance across the system. This programme included a number of key interventions embarked upon by schools, districts, provinces and the DBE in order to support learners at risk of poor performance. These efforts included, inter alia, study camps, vacation schools, special workshops on content training, support to principals of under-performing schools, intensive monitoring and support of under-performing districts and provision of Siyavula textbooks.

These initiatives were additional to the more systemic programmes that included monitoring of syllabus completion across all schools, training of teachers in the implementation of the Curriculum and Assessment Policy Statements (CAPS) and the intervention programmes relating to Mathematics and Science. The efforts of all Departmental officials, including our partners in education, must be commended as these efforts have contributed to the improvement in performance of the class of 2013.

The teachers, senior teachers and principals of all schools are commended for their efforts in preparing the class of 2013 for the NSC examination. Schools whose number of learners that passed Mathematics and Physical Sciences increased, and those whose number of bachelor passes increased are commended for the sterling work done.

I congratulate schools that have obtained an above 80% pass. This was only achieved through the commitment of teachers, the leadership demonstrated by school principals and the School Governing Body (SGB), in creating a learning environment for learners to excel.

Schools that have showed improvement in performance from previous years are also commended. In cases where the schools' performances are not at the desired levels, there are ample opportunities and scope for improvement in the coming year.

Our learners are important, and we value them. In Tata Madiba's words, "There is no keener revelation of a society's soul than the way in which it treats its children." It is this passion for protecting children, which must become the blueprint of all schools, in terms of creating an education environment that will support all South Africans, especially the poor and marginalized, in order for us to build an egalitarian society and a better life for all.

MRS AM MOTSHEKGA, MP

MINISTER OF BASIC EDUCATION

06 JANUARY 2014

1. INTRODUCTION

The Schools Performance Report is part of the Department's ongoing drive to improve feedback to schools and districts on the data emanating from the national examinations. In addition to the Technical Report, which provides data on overall performance at the national, provincial and district levels, the feedback to schools is enhanced by the development of the Schools Performance Report, the Schools Subject Report and Subject Diagnostic Report. All four of these reports are targeting the different levels of the system and will provide education planners, subject specialists and education managers with all the relevant information to undertake their responsibilities relating to improving learner performances across the system.

The Schools Performance Report provides the overall performance of schools in terms of the pass percentage of schools, and important to note in this report is that it provides data on the overall performance of the school over the last three years. This therefore, assists the provincial and district officials to track the performance of the schools over time. However, the overall Schools Performance Report is a broad indicator of schools' performances, and it therefore, does not provide the full story of individual subject performance. Therefore, the Schools Subject Report compliments the Schools Performance Report, since the latter provides information on each subject per school, based on statistical data.

The Subject Diagnostic Report, on the other hand, provides an in-depth analysis of the performance of learners in each subject. The Diagnostic Report identifies specific areas of weakness in selected subjects. For each question paper of each subject, a per question analysis was conducted and the reasons for poor performance in each of these questions was probed, and remedial measures were suggested. The Diagnostic Report served as a useful tool to drive learner improvement in 2013.

This report, given its three year tracking, will also indicate schools which were not affected by the interventions, and where there is a need to strengthen the teaching, learning and support in 2014. The Minister of Basic Education conducts quarterly meetings with district directors to evaluate the intervention strategies (as was the case in 2013), and this school data will be used in the first meeting of 2014, to hold District Directors accountable for the performance of schools in their districts.

This report, therefore, serves as a useful tool to be used by district and circuit managers, to reflect on their performance and review their interventions and their impact on learner performance.

2. SCOPE OF DOCUMENT

This report covers the public, special and independent schools that participated in the National Senior Certificate examinations over a three year period i.e. 2011, 2012 and 2013.

The data included indicates the number of candidates that participated, the number of candidates that achieved the NSC and the pass percentage in each of the three years. In addition, this report provides a list of schools that obtained 100% and those that obtained below 40% over a period of five years respectively. A total of 107 schools obtained 100% over a five year period and these schools must be given special acknowledgement for this achievement. The good practices of these schools must be highlighted and shared so that they can be emulated by other schools. The 55 schools that have constantly under-performed, must be the focus of the Provincial Education Departments' intervention programme. Drastic action must be taken to assist these schools in ensuring that the under-performance is prevented in 2014.

3. SUMMARY OF SCHOOL PERFORMANCE

The table below represents the total number of schools and the performance of these schools in terms of percentage categories.

Provinces		Total Number of Schools	0 - 19.9%	20 - 39.9%	40 to 59.9%	60 to 79.9	80 to 100%	Exactly 0%	Exactly 100%
