MINISTERS FOREWORD

The Class of 2023 must be applauded for their dedication and resilience that translated the disruptions and setbacks of Covid-19, into an occasion of celebration. This Class was subjected to unusual and adverse learning conditions during their Grade 9 and Grade 10 academic years in 2020 and 2021 but the indomitable spirit of these learners coupled with the noble efforts of teachers, parents and South Africans at large led to the successes witnessed and celebrated this evening.

The loss of a greater part of the academic year, in both these COVID years, implied that this class was severely affected and there was major concern about whether the Department's Recovery Programme will adequately prepare these learners for their major exit examination. These learners together with their parents, teachers and the community, pulled out all the stops and have confirmed that no challenge is unsurmountable.

The overall pass rate of this class increased by 2.8% compared to 2022. Five hundred and seventy two thousand, nine hundred and eighty three (572 983) of the 691 160 learners that wrote the examination passed the examination. Two hundred and eighty two thousand, eight hundred and ninety four (282 894) of these candidates obtained admission to Bachelor Studies. What is even more encouraging is that, of the 6 898 schools that wrote this examination, 4 493 of these schools, obtained a pass rate above 80%. To confirm that the pro-poor policy of government is firmly working, the majority of the schools that scored above 80% (2 993) are from the disadvantaged communities (quintiles 1, 2 and 3). To add to the repertoire of most significant improvements, is the improvement in the performance in Mathematics from 55% in 2022 to 63.5%. This confirms that the DBE's drive to increase the number of learners that can enter the fields of Science and Technology is bearing fruit.

The quality of the achievements of the Class of 2023 can be attributed to the relentless efforts of our school principals, teachers and parents, who united in the common understanding that we, as South Africans, have the power to transform the lives of millions of children, equipping them with the tools they need to succeed and positively impact the world.

We must work without ceasing to support learners who did not satisfy the requirements of the NSC, the first time around. These learners may register for the Second Chance Matric Programme. We must make passing Grade 12 a national endeavour and help our young people to reach their full potential.

The Class of 2023 will serve as an in inspiration and a beacon of hope to the Class of 2024 and to all future Grade 12 learners. Let us learn from those that precede us so that we can take learning and education in this country to the next level.

I am therefore encouraging schools to use this Schools Report as a yardstick to compare their own performance to that of other schools that are operating under similar contextual conditions and thus ensure that you are performing on par or above.

Mrs AM Motshekga, MP
Minister of Basic Education

1. INTRODUCTION

The overall results of the 6 894 schools/examination centers that participated in the 2023 NSC examination in the country are packaged into a national report which allows school managers and all officials based either at the national, provincial or district levels, that are responsible for the effective management of schools to analyse the learner performance data presented.

The school level data can be located within each of the 75 districts and represents the number of candidates who wrote the examination and the number that obtained the NSC this year. Every school community is encouraged to engage actively with the data so that each is able to reflect on their performance in the 2023 NSC examination and evaluate it against previous years' to gauge progress made and to consider enhancements and interventions that can be phased into the school programme, in order to achieve concrete and measurable improvements in the new academic year. In addition, schools that are in the same quintile can also compare their historic performance to that of other schools in the same quintile over the last three years to establish if the inputs made by the education system have translated into better performance and a motivated school community. Schools will be able to share best practices and form clusters for mutual benefit.

This report should be read in conjunction with the following complementary reports on the 2023 National Senior Certificate examination published by the Department of Basic Education:

a) The 2023 National Senior Certificate Examination Report;

b) National Schools Subjects Report that presents the performance of each subject over three years; and;

c) The National Diagnostic Reports which provides an analysis learner performance in the 11 Gateway Subjects, the 11 Home Languages and Technical subjects; which identifies areas of poor performance, and recommends appropriate remedial measures in each of the subjects. Together these four reports aim to provide a comprehensive overview of learner, school and subject performance on the 2023 NSC.

2. SCOPE OF THE SCHOOL PERFORMANCE REPORT

This report presents data on the performance of all schools that wrote the 2023 NSC Examination, including public schools, special schools and independent schools. It also provides data on the overall performance of all these schools over a three-year period so that a school is able to measure and track its performance over the last three years.

2023 marks the tenth year of a CAPS-aligned NSC Examination, which means that schools can compare their historic performance in a stabilising curriculum and assessment policy framework. This will help them to establish if they too have reached stability in terms of effective implementation of the intended curriculum.

This report details the number of candidates that wrote the examination, the number of candidates that achieved the NSC and the pass percentage in every school, over the last three years. It also provides a list of schools that obtained 100% and those that obtained below 40% over a period of five years respectively.

3. UTILISATION OF THE SCHOOLS PERFORMANCE REPORT

This report can be used by school managers, subject advisors, curriculum specialists and district planners to do a quick comparative analysis of the overall performance of schools within a circuit, cluster or district.

The data presented in this report enables every school to keep track of their performance over time so that each institution is able to compare their current performance with the previous years' to measure progress made and innovations required in the next school year. Being the tenth year of the implementation of the NSC examination based on CAPS, schools will be able to track their performance in the last three examinations.

The report would also help Education officials to identify consistently underperforming schools, so as to target their interventions appropriately. Schools that continue to underperform must reflect deeply on how to improve learner outcomes and should consider collaborating with better performing schools so that this shared experience can build a stronger professional schooling community and contribute towards improved performance. Although this report on the overall school performance results may mask the performance of the individual teachers and subjects, the schools' subject report provides detailed performance per subject so that no one escapes the accountability chain.

4. SUMMARY OF SCHOOL PERFORMACE
